## SUPPLEMENT TO

25

The railway bridge over the Yu River, south-west of Nanning on the Nanning-Chennankuan (106-41, 21-58) railway, was completed on 30 May 1951. Tests run on 2 June proved the bridge to be most satisfactory. It is the largest engineering project on the Nanning-Chennankuan line, and was built by the 3 Bridge Building Corps of the Hunan-Kwangsi Railway Administration with the assistance of a large number of Soviet engineers. Work on the bridge was started in mid-February 1951.

25X1A 1. [REDACTED] Comment. According to information available to this office work on the rail line was completed in early June, and traffic was to begin 8 July 1951.
